TECHNICAL SKILLS

- **Programming language** | Java, Python, Java Script
- **Web Technologies** | HTML, CSS
- **Technology** | Android, Tableau, Git, Excel
- **Databases** | MySQL, MongoDB
- **Project Management** | JIRA
- **Test Automation** | Selenium

EDUCATION

Bachelor of Technology: Computer Science Lovely Professional University – Punjab, India	June 2019 – July 2023 8.25/10
Andhra Pradesh Board of Intermediate Education Narayana Junior College – Vijayawada, India	June 2017 – May 2019 9.79/10
Board of Secondary Education, Andhra Pradesh Chinmaya Vidyalaya – Hindupur, India	June 2016 – May 2017 9.8/10

PROJECTS

- **My Fitness Application** - The project was to build a clean fitness application which allows users to perform various workouts.
Designed a clean functional Dashboard for the application. [Google Play Store](#) , [GitHub](#)
- **Employee Management System** - The Employee Management System is a Java-based project that allows users to perform CRUD (Create, Read, Update, Delete) operations on employee data. It utilizes Java's object-oriented programming concepts, database connectivity, and user input validation to ensure efficient and reliable data management. [Google Drive](#)
- **Payment Date Predictor** - payment date predictor is a machine learning model where the model predicts the payment date by analyzing the previous payments dates. [GitHub](#)
- **B2B Cloud Application** - During this project I have created a full stack web-based product where technologies like java, html, CSS, react were used and the goal is to create an interactive dashboard with CRUD operations.
- **Movie Analysis** - The Movie Analysis Project involved analyzing the data of the number of movies released per year on various OTT (Over-The-Top) platforms using pivot tables, graphs, and charts in Excel. By organizing and visualizing the data, we gained insights into trends and patterns, enabling us to identify the growth and popularity of different platforms over time. [Google Drive](#)

WORK EXPERIENCE

HighRadius Corporation [INTERN] – Bhubaneswar, India Certificate	June 2022 – May 2023
<ul style="list-style-type: none">• In my role at Highradius, my primary task involves automating carrier websites and storing crucial data, such as claims and PODs (Proof of Delivery), into a database. Using automation tools and techniques (Java, Selenium).• I streamline the process of retrieving and organizing this data, ensuring accuracy and efficiency. By automating these tasks, I contribute to enhancing productivity, reducing errors, and facilitating effective data management within the organization.• At Highradius my daily challenges included Debugging, fixing Bugs , enhancing new features, Automation etc.• My primary responsibility is to deliver assigned tickets before their estimated time of arrival (ETA). I efficiently manage and prioritize tasks, ensuring timely completion and meeting project deadlines. Through effective communication and collaboration with the team.	
LTI Mindtree [INTERN] - Remote Certificate	Feb 2023 – May 2023
<ul style="list-style-type: none">• This invaluable experience as an Intern at LTI Mindtree allowed me to further expand my knowledge and practical skills in areas such as software development.• Emerged as a star performer in the internship program.
